

ete collectif

Website Development Log & Backup
Markus Sommer | m.sommer1991@gmail.com
Generated: 2026-08-30

Full backup of all website changes, technical decisions, configuration values, and pending tasks across both development sessions.

1. Project Overview

Live site: <https://www.etecollectif.com>

Repo: main branch, Vercel auto-deploy on git push

Key files: index.html (shop), collectif.html (portfolio), api/generate-frame-mockup.js (sharp mockup), api/create-order.js (Prodigi, server-only), api/create-payment-intent.js (Stripe, server-only)

2. Security — API Keys

NEVER commit to frontend files:

Key	Storage	Value
PRODIGI_API_KEY	Vercel env var	cec6fb92-5a70-4c3d-bab4-4f960dc27560
STRIPE_SECRET_KEY	Vercel env var	sk_... (never in frontend)
Stripe Publishable Key	Frontend safe (pk_test_...)	pk_test_51Tolhf0WnZIGFPbLr56HeXHv...KymXc8

3. Technical Architecture

3.1 i18n System

_i18n object with en/de keys. Elements use data-i18n attribute. applyTranslations() updates DOM. setLang() does 150ms CSS opacity fade. Language stored in localStorage key ete_lang.

3.2 Frame Mockup Generator

Serverless /api/generate-frame-mockup.js — sharp library. Black box frame template + SVG hard-light tint for White/Natural.

```
BOX_TINTS: White { r:240 g:240 b:240 opacity:0.80 blend:'hard-light' }  
Natural { r:215 g:185 b:145 opacity:0.85 blend:'hard-light' }
```

Natural frame swatch: #ccb28f (border #a68858), RGB(204,179,143) — sampled from physical frame photo via Python/PIL.

Hook for face-on natural template already in place: BOX_NATURAL_TMPL_FILE + BOX_NATURAL_TMPL = null.

3.3 Mockup Cache

_mockupCache keyed by \${img}\${colorName}\${style}\${useMc}. _mockupReqId cancels stale requests.

3.4 Frame Loading UX

Cache miss: image opacity=0, wrap background=white, spinning camera icon shown (absolute overlay inside mFrameWrap). On loaded: icon removed, background cleared, image shown.

3.5 Currency System

Auto-detects via IP. Exchange rates fetched at runtime. Base: CHF. Selector: CHF/EUR/USD/GBP in nav.

3.6 Pricing (CHF base)

Size	Print CHF	Frame CHF	Print SKU	Frame SKU
A5	47	—	GLOBAL-HPR-A5	—
A4	69	189	GLOBAL-HPR-A4	GLOBAL-BFPP-A4
A3	99	229	GLOBAL-HPR-A3	GLOBAL-BFPP-A3
A2	149	349	GLOBAL-HPR-A2	GLOBAL-BFPP-A2
A1	229	499	GLOBAL-HPR-A1	GLOBAL-BFPP-A1
A0	349	699	GLOBAL-HPR-A0	GLOBAL-BFPP-A0

4. UI & Style Decisions

Nav Font (modal title, Collectif heading, photo card titles)

```
font-family: var(--sans); font-size: 11px; font-weight: 600; letter-spacing: 0.18em;
text-transform: uppercase;
```

Arrow Direction (Print / Framed toggle)

Framed view: right arrow visible (goes to Unframed). Unframed view: left arrow visible (goes to Framed). Logic: prev.disabled = isFramed; next.disabled = !isFramed.

Swipe (mobile)

Swipe left = go to Framed. Swipe right = go to Unframed. Threshold: $|dx| > 40$ and $|dx| > |dy|$.

5. About Section Content

English

ete collectif was born out of the idea to share what we see with our eyes, but all captured through a lens (analog or digital). We photograph the daily hustle, tranquility, from people to nature, mountains to sea, all the beauty this world has to offer.

Contact line: "If you have questions, drop us a message via Instagram or E-Mail." (linked)

German (grammatically corrected)

ete collectif ist aus der Idee entstanden, das zu teilen, was wir taglich mit unseren Augen sehen - festgehalten mit einer Linse (digital oder analog). Wir fotografieren den Alltag, Ruhe, von Menschen bis zur Natur, von Bergen bis zum Meer - Alles, was diese wundervolle und einzigartige Welt zu bieten hat.

Note: "Alles, was" (not "das") is correct after indefinite pronoun. "von Bergen bis zum Meer" parallel to "von Menschen bis zur Natur".

6. Full Change Log

Session 1

- Sizes A5-A0, real Hahnemuhle pricing, SKUs updated
- Global PRINT_PRICES/FRAME_PRICES tables + price() function (both pages)
- Currency auto-detection + exchange rates + selector UI (CHF/EUR/USD/GBP)
- Free shipping threshold in detected currency
- Fixed collectif.html TDZ crash on load
- Box frame: SKU, White/Black/Natural colors, mounts, outer size display, cart nav
- Mobile modal: sticky header, Instagram icon, image spacing
- Swipe gesture for Print/Framed toggle (mobile)
- Add to Selection bottom spacing fix (mobile)

Session 2

- Natural frame: sampled color #ccb28f/#a68858 from physical frame photo
- BOX_TINTS Natural updated in generate-frame-mockup.js
- Face-on natural template hook added (BOX_NATURAL_TMPL = null)
- Replaced Google Translate with smooth built-in i18n + 150ms CSS fade
- Frame loading: spinning camera icon overlay (no more layout-shifting text)
- Frame loading: white background while loading (hides unframed photo)
- .modal-title, .work-title, .w-name -> nav font style
- About section text rewritten (EN + DE, both pages)
- Removed "COLLECTIF 12 works" header; fixed null crash from missing workCount element
- Arrow directions fixed: Framed=right arrow, Unframed=left arrow
- German about text grammatically corrected (Alles was, von Bergen bis zum Meer)

7. Pending / Future

Natural frame face-on template: Place "Box natural framed print face on.jpg" in Images/frames/, measure pixel coords of print area, fill BOX_NATURAL_TMPL in generate-frame-mockup.js.

Deploy: git push origin main from Foto Website directory.

8. Git Workflow

```
cd "/Users/markussommer/Library/Mobile Documents/com~apple~CloudDocs/my-projects/Foto/Foto Website"
git status
git add index.html collectif.html api/generate-frame-mockup.js
git commit -m "description"
git push origin main # triggers Vercel auto-deploy
```

Vercel is connected to main branch. No manual deploy step needed.
